OBJECTIVE

Seeking a software development co-op for Summer 2026 with strong skills in HTML, CSS, JavaScript, React, Java, Python, and SQL.

EDUCATION

Rochester Institute of Technology (RIT), Rochester, NY

Expected May 2028

Bachelor of Science, Web and Mobile Computing BS

GPA: 3.9

Dean's List: Fall 2024, Spring 2025, Fall 2025

- **Related Courses:** Web and Mobile I & II, Computer Science I & II, Applied Data Structures and Algorithms, Database and Data Modeling, Database Connectivity & Access, Design for Developers, Client Programing, Foundations of Mobile Design, Software Design Principles & Patterns, Web Engineering

SKILLS

Languages & Frameworks: HTML, CSS, JavaScript, React, Java, C#, Python, PHP, MySQL, PostgreSQL, JUnit

Operating System: Windows 10/11, Apple OS, Linux (Debian)

Development Software: Microsoft Visual Studio Code, PyCharm, IntelliJ IDEA, Eclipse, Microsoft SQL Server

Software: FileZilla, MySQL Workbench, pgAdmin, Adobe Illustrator, GIMP, Figma, Git/GitHub

PROJECTS

SplitTime: Swim Meet Manager - *Personal Project*

February 2026 – Present

- Built and deployed a full stack swim meet management app for the RIT Swim Club to track events, heats, and results.
- Designed a relational SQLite database schema and built a REST API with FastAPI to manage meets, events, and swimmers.
- Developed a vanilla JS frontend with dynamic rendering, relay event support, and PDF/CSV export functionality.
- Deployed to a Linux (Debian) server with Apache.

Full-Stack Rideshare Application, *Course Project*

January 2026 – Present

- Architecting a scalable rideshare platform using React, Python (Flask) REST API, and PostgreSQL
- Designing a relational schema in PostgreSQL to handle user profiles, ride tracking, and ride history
- Implementing a RESTful API architecture to bridge the database layer and React frontend components

Legacy Web App Migration, *The Raymond Corporation Internship*

January 2024 – August 2024

- Converted legacy ColdFusion web applications to JavaServer Faces (JSF), HTML, SQL, and Java, eliminating recurring licensing costs
- Refactored frontend pages into reusable JSF components with clean HTML/CSS layouts
- Collaborated with senior developers to ensure functional parity and smooth business logic migration

WORK EXPERIENCE

Web Application Developer – *The Raymond Corporation*

August 2022 – August 2025

Greene, NY

- Developed and maintained internal web applications using HTML, CSS, Java, SQL, JSF, JUnit, and Microsoft PowerApps + Power Automate.
- Built applications to monitor cyber threat risk across company departments.
- Collaborated with senior developers in agile team meetings both in person and remotely.

LEADERSHIP EXPERIENCE

RIT Swim Club – *Treasurer*

January 2025 – Present

- Managed an annual budget and maintained accurate financial records for a club with 40+ members.
- Collected club dues, tracked expenses, and ensured compliance with RIT's policies and procedures.
- Coordinated with officers and other clubs to organize travel to away competitions.
