OBJECTIVE

Full-stack developer experienced in building production web applications using JavaScript/TypeScript, React, Python, Java, and SQL. Seeking a 2027 co-op/internship role to contribute to software engineering projects.

EDUCATION

Rochester Institute of Technology (RIT), Rochester, NY

Expected May 2028

Bachelor of Science in Web and Mobile Computing

GPA 3.91

Dean's List: Fall 2024, Spring 2025, Fall 2025, Spring 2026

- **Related Courses:** Computer Science I & II, Web & Mobile I & II, Applied Data Structures and Algorithms, Database and Data Modeling, Designing the UX, Client Programming, Server Programming, Software Design Principles & Patterns, Web Engineering, Database Application Development, Networking Essentials, Intro to GIS

SKILLS

Languages: HTML, CSS, JavaScript, Typescript, Java, C#, Python, PHP

Frameworks: React (TSX/JSX), Flask, FastAPI, Spring, JavaServer Faces (JSF)

Databases: PostgreSQL, MySQL, SQLite

Operating Systems: Windows 10/11, macOS, Linux (Debian)

Tools & Technologies: Git/GitHub, Apache, JUnit, Cypress, Jest, MS SQL Server, VS Code, IntelliJ, PyCharm, Figma

PROJECTS

SplitTime: Swim Meet Manager - Personal Project

February 2026 – July 2026

- Designed and deployed a full-stack swim meet management platform for 20+ RIT Swim Club members to manage events, heats, relays, and results.
- Built a FastAPI backend with a normalized SQLite schema to manage meets, swimmers, and event data.
- Developed a vanilla JS frontend with dynamic rendering, relay event support, and PDF/CSV export functionality.
- Deployed to a Linux (Debian) server with Apache.

Full-Stack Rideshare Application, Course Project

January 2026 – May 2026

- Building a full-stack rideshare platform using React, Flask, and PostgreSQL.
- Designing a normalized relational schema to support ride tracking and carpooling features.
- Implementing RESTful API endpoints to connect backend services with frontend components.

WORK EXPERIENCE

Software Developer Intern – BAE Systems

May 2026 – August 2026

Rome, NY

- Developed reusable, responsive frontend UI components for the GXP application using React (JSX/TSX), JavaScript, and TypeScript.
- Integrated UI components with backend microservices via RESTful API requests to deliver data to end users.
- Collaborated with cross-functional teams to refine UI/UX specifications and adhere to enterprise frontend standards.

Web Application Developer – The Raymond Corporation

August 2022 – August 2025

Greene, NY

- Developed and maintained internal enterprise web applications using Java, JSF, HTML, CSS, SQL, and JUnit.
- Built applications to monitor and visualize cyber threat risk exposure across company departments.
- Integrated Microsoft PowerApps and Power Automate solutions to streamline internal workflows.
- Participated in agile development processes including code reviews and cross-functional collaboration.

LEADERSHIP EXPERIENCE

RIT Swim Club – Treasurer/Admin

January 2025 – Present

- Managed an annual budget and maintained accurate financial records for a club with 40+ members.
- Collected club dues, tracked expenses, and ensured compliance with RIT's policies and procedures.
- Coordinated with officers and other clubs to organize travel to away competitions.
